

Vulnerability Scale

This is an easy to use EXCEL spreadsheet that allows you to identify those pupils with multiple vulnerabilities, so that your school is better able to support them and explain your school's data story. It works by identifying and weighing different vulnerabilities. It is easily adaptable to your school and its needs.

	Child	Pupil premium	Service family	GRT	EAL	summer born	SN register	more than one fixed term	exclusion	statement/EOP	ENOF	ar	TM/PA	CHP	employment	TAC/EHA	family support programme	Young carer	High mobility	Domestic Abuse	family break down	Bereavement	medical need	registered disabled	ADHD diagnosis	ASD diagnosis	CAMHS	Total score	comments

This tool will enable you to:

- Identify complex pupils suffering with multiple vulnerabilities
- Focus on impact on multiple vulnerabilities
- Develop an alternative way of looking at children presenting challenging behaviour and how you respond to this.
- Assess the impact on interventions for specific groups.
